Skills

Programming: C

Projects

Arduino and Stress Detection using AI

- Developed a project combining **Arduino** and **Artificial Intelligence** for stress detection.
- Worked on integrating electronic components with an AI-based approach to identify stress-related conditions.

Experiences

Eshwar Technologies

Worker *6 Months*

- Supported day-to-day technical and operational activities while gaining practical workplace experience.

Achievements

-

Education

Government Polytechnic, Belur (GPT Belur) **2023 – 2026**

Diploma *CGPA: 7.16 — Belur, Karnataka*
